State of Louisiana Department of Transportation and Development (DOTD) Materials and Testing Section Qualification Procedure for Oualified Products List 7.3

PLASTIC PIPE FOR UNDERDRAIN SYSTEMS AND YARD DRAINS

MATERIAL SPECIFICATION REFERENCE:

DOTD Standard Specifications, Subsection 1006.08 and 1006.09.

PRELIMINARY REQUIREMENTS:

Qualified Product Evaluation Form

The manufacturer shall submit a standard "Qualified Product Evaluation Form" to the DOTD Materials and Testing Section Coordinator listed below, along with a letter requesting evaluation for the Qualified Products List.

Product Data Sheets

Include product data sheets with all pertinent information relative to the product to be evaluated; including, but not limited to, manufacturer's specifications, typical analysis and a Materials Safety Data Sheet (MSDS).

Sample (to be furnished at no cost to the Department)

Corrugated Pipe — Submit four 1.5-meter lengths of pipe and a joint system. Smooth Wall Pipe — Submit one 2-meter length of pipe and a joint system.

TEST REQUIREMENTS:

The manufacturer shall submit their product to the AASHTO National Transportation Product Evaluation Program (NTPEP). If NTPEP has not adopted a work plan for your particular product, please contact us for an alternative method of evaluation.

AASHTO NTPEP Testing:

Results obtained by the AASHTO NTPEP will be used in the evaluation of this material.

The contact person affiliated with AASHTO NTPEP is:

NTPEP Coordinator Ph: 202/624-3695 Fax: 202/624-5806 AASHTO National Transportation Products Evaluation Program 444 N. Capitol St. N.W. Suite 249 Washington, D.C. 20001

For detailed information, refer to the Operational Procedures of the AASHTO NTPEP available from the Coordinator.

Materials and Testing Section Qualification Procedure 73 Page 2

Evaluation Time

A final report will be received after the evaluation period. Exact deadline dates and details for submittals should be obtained from the NTPEP Coordinator.

GENERAL:

Upon completion of the evaluation, the submitter will be notified in writing concerning the results of the evaluation and whether the product will or will not be added to the Qualified Products List. The Department reserves the right to reevaluate any product at any time.

PROJECT ACCEPTANCE REQUIREMENTS:

Qualification of a product is not blanket approval for its use.

A certificate of analysis indicating actual test results shall accompany each shipment of pipe. A sample may be taken by Department personnel for each type of pipe. Final acceptance of each shipment is dependent upon test results which shall conform to the established specification requirements and which identify the sample as being representative of the product originally approved.

DISQUALIFICATION:

Any product may be removed from the Qualified Products List for non-conformance with specifications or performance requirements. The Department must be notified in writing of any change in product formulation. Significant changes may require reevaluation of the product.

REQUALIFICATION:

A product which has been disqualified and removed from the Qualified Products List will be considered for reevaluation only after submission of a formal request along with acceptable evidence that the problems causing the disqualification have been resolved.
